<https://github.com/Hensell>

+505 78719407

## Skills

**Frontend:** Flutter, Android (Jetpack + Kotlin), React, Next.js, TypeScript

**Backend:** Node.js, Express.js, NestJS, PostgreSQL, Firebase

**Tools:** Docker, Git, GitHub, Azure DevOps, Trello, Figma, Supabase

## Projects

**NicaFinanzas** <https://nicafinanzas.com>

- AI-powered financial assistant built with Flutter Web and OpenAI API.
- Deployed on Cloudflare Pages with responsive UI design.

**Quantix AI Assistant API** <https://github.com/Hensell/quantix-ai-assistant-api>

- Open-source TypeScript API using Hono and OpenAI Assistants.
- Runs on Cloudflare Workers with serverless architecture.

## Work Experience

**Freelance Full-Stack Developer**

**Remote | Dec 2022 – Present**

- Built and launched two cross-platform apps using Flutter, integrating Firebase and Supabase for secure authentication and local data persistence.
- Developed and deployed RESTful APIs with Node.js, Express, and NestJS, implementing query optimization and clean architecture for scalability.

**Quality Systems Analyst**

**Financiera FDL – Managua, Nicaragua | Apr 2024 – Present**

- Conduct functional testing of internal web and mobile platforms, designing test cases based on business requirements.
- Collaborate with frontend, backend, and QA teams under Agile/SCRUM to ensure timely and high-quality software delivery.
